

5 Fixter Avenue KALKIE QLD

4  2  3 

This would have to be one of the best kept homes I have seen in a while and is a credit to its owners. A classic all rounder that would make an excellent family home or just a great addition to your investment portfolio especially with the current rental crisis. The property is well positioned amongst similar low maintenance homes between Bundaberg CBD and the beautiful Bargara coastline allowing for short commutes to work or play. The home itself has good street appeal with established gardens mostly under irrigation around the perimeter of the block giving you that rural feel of seclusion. There is good vehicle access down the side of the fully fenced rear yard via double gates to a separate steel shed large enough to accommodate a vehicle while still having room for storage and a good sized home workshop.
